

I am a subscriber to XM satellite radio and appreciate the cutting edge technology and programming and feel they offer a far superior product than does any of the local radio stations, either AM or FM. I pay for these services and feel it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability in providing the kind of programming that I demand and deserve.
